Welcome- Teresa Curristine

Minutes Approval- Meeting minutes for September 8, 2020 unanimously approved by the Board.

Student Enrollment – Washington Global’s enrollment will be slightly lower than last school year, largely due to the COVID-19 pandemic. Some students left Global to attend a school closer to their homes or to be closer to a sibling. Dr. Torres projects enrollment for this school year at about 230 students.

Current Operating Status- The school’s leadership team is currently preparing the school for an October site review by the PCSB to offer small group, in-person programming that focuses on students with special needs. The Board agrees with the direction of the programming and ensuring that the environment is safe for students and staff.

Closing- Teresa Curristine thanks members and adjourns the meeting.
